Dear Hank,

5/22/85

Today I received from Jim Lesar, to whom a carbon, several more excerpts from the FBI JFK assassination ticklers, disclosed 4/25/85, to Mark Allen. A couple may be of interest to you.

In the Marguerite Oswald tickler, Documents 32 and 33, evidently FBIHQ directives to Dallas to establish a separate "Marguerite Oswald File. It thus did not require any discovery from me to locate this file and no discovery from me could have enabled it to prove that it had complied. New Evidence, I'm pretty sure the second of this nature subsequent to the case going up on appeal.

I enclose one page only of Document 1 from the Marina Oswald tickler, page 6. It recounts how the alleged assassin was so intent upon making his place in history he almost overslept his rendezvous with destiny.

The Marina Oswald Tech. Surv. tickler holds the news account of an FBI statement after its electronic surveillances on her were disclosed. I include it to give you an illustration of how the FBI lies without seeming to lie. Its own statement is that it "had conducted ~~one~~ electronic surveillance on Marina Oswald's residence from Feb. 29, 1964 to March 12, 1964, based upon written approval of the attorney general of the United States." The FBI did not seek or get approval for bugging her house before she moved in. It did get approvals for the wiretapping only. Its reference to these surveillances is in the singular.
